Chapter 3: INTENSIVE Challenge Problems Answer Sheet

Data Types, Variables, Constants, and Concatenation Output Prediction

Use this page to record your written and prediction answers to the **Challenge Problems from Chapter 3**. Write the answer/output of each problem in the appropriate Serial Monitor. You may use your notes, old code, and textbook for assistance.

Problem 1

[Enter your **predicted output** here. Add more space as needed.]

Problem 2

[Enter your **predicted output** here. Add more space as needed.]

Problem 3

[Enter your **predicted output** here. Add more space as needed.]

Problem 5

[Enter your **predicted output** here. Add more space as needed.]

Problem 7

[Enter your **predicted output** here. Add more space as needed.]

Problem 8

[Enter your **predicted output** here. Add more space as needed.]

Problem 9

[Enter your **predicted output** here. Add more space as needed.]

Problem 10

[Enter your **predicted output** here. Add more space as needed.]

Problem 11

[Enter your **predicted output** here. Add more space as needed.]

Problem 12

[Enter your **predicted output** here. Add more space as needed.]

Problem 13

[Enter your **predicted output** here. Add more space as needed.]

Problem 14

[Enter your **predicted output** here. Add more space as needed.]

Problem 15

[Enter your **predicted output** here. Add more space as needed.]

Problem 16

[Enter your **predicted output** here. Add more space as needed.]

Problem 17

[Enter your **predicted output** here. Add more space as needed.]

Problem 18

[Enter your **predicted output** here. Add more space as needed.]

Problem 19

[Enter your **predicted output** here. Add more space as needed.]

Problem 22

[Enter your **predicted output** here. Add more space as needed.]

Problem 23

[Enter your **predicted output** here. Add more space as needed.]

Problem 24

[Enter your **predicted output** here. Add more space as needed.]

Problem 25

[Enter your **predicted output** here. Add more space as needed.]

Problem 26

[Enter your **predicted output** here. Add more space as needed.]

Problem 31

[Enter your **predicted output** here. Add more space as needed.]

Problem 32

[Enter your **code** here.]
